VIVID

Fabric banner stand
Set up
guideline

Set up

1
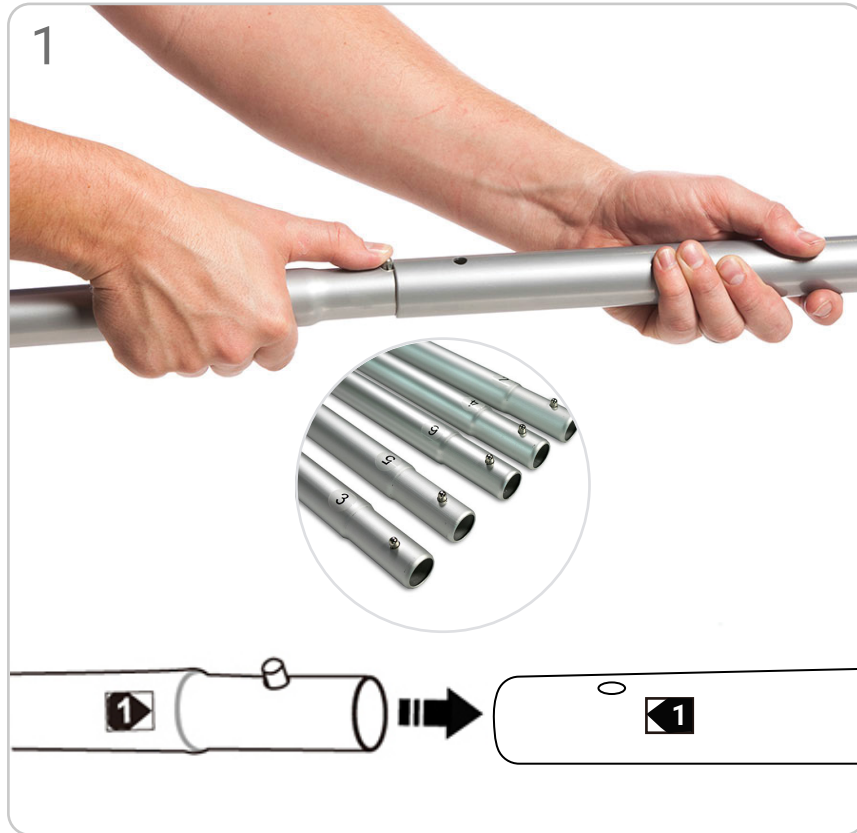

Connect tubes together.
Each tube is labelled from both ends.

2

Clip in the vertical poles with the matching labels together. Secure the frame by installing the support pole at the bottom and then installing the remaining tubes to the top. Your frame should now look like this.

3

Slip the fabric into the frame and pull it all the way down to create tension.

4

Allen key supplied

Top view
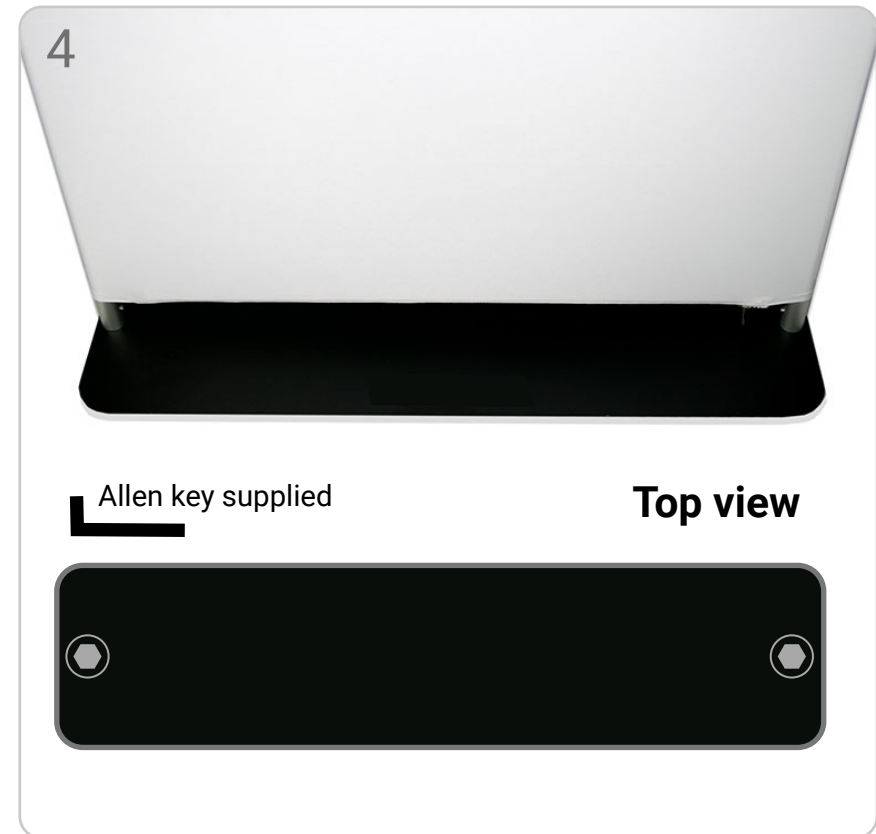

Finish up by screwing the base to the frame from the bottom using Allen key.

Your fabric banner is now ready !

Carry case

How to collapse the unit?

1. Remove the fabric from the frame.

2. Release the tubes from one another and safely place them back into the carry case.

Safety notes

1. Please store the printed skin in a cool and dry place to retain the print quality.

2. DO NOT bleach the fabric. You can only handwash or machine wash the fabric.

3. Always stretch out the fabric on the frame to dry after washing.
